---

## Career Objective:

To secure an entry-level position in Java Development where I can utilize my academic knowledge and technical skills. I am dedicated to continuous learning and professional growth while positively impacting the organization.

---

## Skills:

- Advanced Java, J2EE,
  - JSP, Servlets, SpringBoot, Hibernate
  - HTML, CSS, JavaScript, PHP
  - Object Oriented Programming, DSA
  - MySQL, DBMS, SQL
  - IDE: MyEclipse, NetBeans, VS code
  - Strong communication skills, excellent problem-solving, and analytical skills
  - GitHub, Git
- 

## Experience:

- ❖ **Java Development** Internship, Let's Grow More April - May 2023
    - Collaborate with the development team to design and implement Java applications.
    - Assisted in developing and testing new features and functionalities using Java programming language.
    - Participated in code reviews and debugging sessions to identify and fix issues.
  - ❖ **Web Development** Internship, SYNC Intern's Feb - March 2023
    - Worked on various projects related to website design, and development.
    - Gained experience in project management and problem-solving.
    - Assisted in the creation of responsive and user-friendly web interfaces.
    - Developed a strong understanding of web development and provided me with valuable practical experience in the field.
  - ❖ **Web Development and Designing** Internship, Oasis Infobyte Jan - Feb 2023
    - Worked on a team of interns to develop a responsive website using HTML, CSS, and JavaScript.
    - Collaborate with designers to implement design concepts and improve user experience.
    - Learned and applied new web development and design techniques and best practices under the guidance of senior developers.
- 

## Education:

- MCA at Manipal University Jaipur in 2022-2024 [pursuing]
- BSc Computer Science at Savitribai Phule Pune University in 2019- 2022 with a 9.30 CGPA
- HSC at Maharashtra State Board in 2018- 2019 with 71.54 %
- SSC at Maharashtra State Board in 2016- 2017 with 82.80 %

## Projects:

### ❖ **Landlord Management System**

This project is developed using Java(JFrame & JDBC), Database PostgreSQL that maintains the land booking records.

Link: <https://github.com/GangurdeSujata/Landlord-Management-System>

### ❖ **Password Generator**

This project is a Java Console application to generate random passwords and perform a password strength check. This is a minor feature that displays on the console hence information for the user about password security (Avoid using the same password twice/ Avoid character repetition, keyboard patterns, dictionary words, letters or number sequences, etc.)

### ❖ **Police File Handler System**

FrontEnd : Java(swing and awt) and BackEnd: Mysql database

This project was the desktop application for managing and maintaining FIR files, Criminal Details, Victim Details, Court Orders, and Staff Details. In this project, I used report -(Jasper report plugins) to generate a report with a print. This project was developed using the NetBeans IDE.

---

## Extra-Curricular Activities:

- Complete 30 days code challenge on HackerRank.
- Participate in Developer Virtual Experience Program at Accenture.
- Participate in the coding competition. (inter-college)

---

## Certifications / Accomplishment:

- Java Programming Masterclass Covering Java 11 and Java 17 by Udemy
- Introduction to Web Development using HTML, CSS, and JavaScript by Coursera
- Essential Program in Python Zero to Hero by Let's Upgrade
- Developer Virtual Experience Program by Accenture
- JavaScript Certificate by HackerRank
- HTML Fundamentals Course by Sololearn
- CSS Fundamentals Course by SoloLearn
- Front-end Development -HTML by Great Learning
- Java Development Internship Certificate by Let's Grow More
- Web Development Internship Certificate by SYNC Intern's
- Web Development and Designing Internship Certificate by Oasis Infobyte
